Samson's Expedition XP25i makes public address more mobile than ever before. This versatile loudspeaker/push-to-talk microphone system provides enormous power and incredible sonic performance in a highly portable package. This combination of an ergonomic design and an all-inclusive technical feature set allows the Expedition XP25i to perform anywhere you need to address a crowd.

Beginning with its lightweight and conveniently designed enclosure, which includes a carry handle, shoulder strap, mic stand adapter and internal rechargeable battery, the XP25i provides all-in-one audio. Controlled by a push-to-talk microphone, the XP25i features a 5" full range loudspeaker with 25 watts of RMS power.

The unit offers additional versatility by including 1/8" line in/outputs, 1/4" mic inputs, aux inputs and a built-in iPod dock with level control. These high-quality components and exceptionally rugged construction ensure a long life for your XP25i.

The XP25i is the perfect PA solution for a variety of applications. From business meetings, classroom activities and guided tours to crowd control, sports coaching and tailgating parties, the XP25i delivers your voice to the audience in a clear and concise manner. And don't forget that you can play your favorite tunes in any of these settings with the unit's internal iPod dock.

Samson's Expedition XP25i: An all-in-one system for on-the-go audio.
